## **Media Statement: Update on Cybersecurity Incident and Operational Response**

**Sydney, Australia, 13 November 2023:** DP World Australia is pleased to announce that operations resumed at the company's ports across Australia at 9 AM (AEDT) today, 13 November, following successful tests of key systems overnight.

The company expects that approximately 5,000 containers will move out of the four Australian terminals today.

The ongoing investigation and response to protect networks and systems may cause some necessary, temporary disruptions to their services in the coming days. This is a part of an investigation process and resuming normal logistical operations at this scale.

DP World Australia is continuing to work closely with, and appreciates the support of, the National Cyber Security Coordinator, the Australian Cyber Security Centre, the Australian Federal Police, Minister for Home Affairs and Cyber Security Clare O'Neil, Minister for Infrastructure, Transport, Regional Development and Local Government Catherine King, and other relevant government regulators and bodies.

Importantly, the resumption of port operations does not mean that this incident has concluded. DP World Australia's investigation and ongoing remediation work are likely to continue for some time.

## About DP World

Trade is the lifeblood of the global economy, creating opportunities and improving the quality of life for people around the world. DP World exists to make the world's trade flow better, changing what's possible for the customers and communities we serve globally.

With a dedicated, diverse and professional team of more than 106,500 employees spanning 73 countries on six continents, DP World is pushing trade further and faster towards a seamless supply chain that's fit for the future. In Asia Pacific, DP World employs more than 7,000 people, and has ports and terminals in 18 locations.

We're rapidly transforming and integrating our businesses -- Ports and Terminals, Marine Services, Logistics and Technology -- and uniting our global infrastructure with local expertise to create stronger, more efficient end-to-end supply chain solutions that can change the way the world trades.

What's more, we're reshaping the future by investing in innovation. From intelligent delivery systems to automated warehouse stacking, we're at the cutting edge of disruptive technology, pushing the sector towards better ways to trade, minimising disruptions from the factory floor to the customer's door.

**WE MAKE TRADE FLOW  
TO CHANGE WHAT'S POSSIBLE FOR EVERYONE.**
